Why choose a Pagabo framework?

We're a different kind of framework provider. With over 100 years' experience in procurement, we understand your challenges and work to deliver the most value possible from your projects.

3 reasons we're different:

- 1. We deliver:** We won't let you down when it comes to delivering the number of bids your project needs. We work closely with the consultants to make sure it happens.
- 2. No project, no fee:** We don't believe in engagement fees. We share the risk in the early stages of the process by only charging fees once your project officially starts.
- 3. Your contract, your way:** Our frameworks are compatible with any contract type, whether its NEC, JCT or your own organisations.

Some other key benefits of using Pagabo:

Simplicity

We take the complication out of procurement, so all our frameworks are free to access and easy to use.

Support

We provide support and advice throughout your project, from feasibility to handover through to completion.

Transparency

We don't hide costs. Our fees are fully transparent and charged as an agreed percentage of the overall project.

Stability

We monitor the financial stability of our consultants to ensure they continue to be a safe pair of hands for your project.

Flexibility

Whether it's a Direct Award or Further Competition, our frameworks support a range of procurement processes.

Value for Money

Each of our consultants has met rigorous selection criteria around quality of work and competitive pricing.

Delivering real social value with

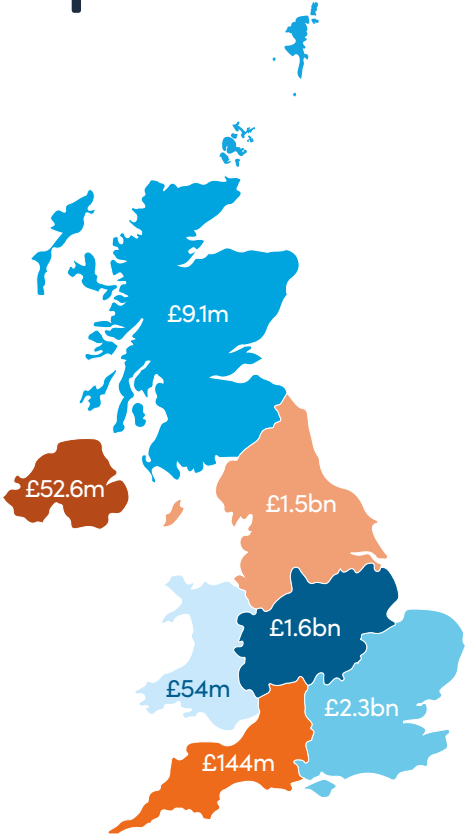

Driving real, meaningful social value and social impact is at the heart of what we do at Pagabo. Through our unique Social Value Calculator, we are able to calculate your social, economic and environmental impact and the financial value, in real monetary terms, of that impact. Pagabo adds value through our frameworks by supporting social value at the feasibility, business case development, planning, procurement, delivery and maintenance stages of your investments.

As of June 2023, our frameworks enabled £5.8 billion in social value.

Benefits of using our DPS for Small Works | Up to £3m

There are so many benefits to using our Dynamic Purchasing System (DPS) for Small Works. Whilst connecting public sector organisations with pre-approved trades businesses of all sizes across the UK – our DPS helps cuts timescales, streamlines the process and simplifies tendering for clients and suppliers alike.

Each of the individual contractors on our DPS are evaluated against standard PAS91 criteria. We have vetted each and every one of the suppliers on our list, so you don't have to.

- ✓ **Health & Safety**
- ✓ **Financial stability**
- ✓ **Environmental compliance**
- ✓ **Equality / Diversity compliance**
- ✓ **Contract examples to demonstrate capability**

Other key benefits:

Flexibility

We provide flexibility on price and quality criteria compared to frameworks.

Local Suppliers

We are able to onboard you smaller local suppliers that can struggle to compete with large organisations' bidding teams to be shortlisted on Quality at SQ, which ensures they get a chance to tender for your Contract.

Time Saving

Our DPS streamlines your procurement project helping FastTrack the process.

Support

We provide support in helping with creating tender documentation, award criteria, administrating as well as supporting throughout the evaluation and moderation of the tender.

Choice

With over 300 pre-qualified suppliers, our DPS offers a range of quality options for your next project.

Case Study

ME Construction's award-winning refurb of The Tabernacle, Notting Hill

A refurbishment of public facilities within a long-serving cultural arts and entertainment venue in Notting Hill has been completed by ME Construction, having been appointed via our DPS for Small Works.

ME Construction was awarded the project for Royal Borough of Kensington and Chelsea via our DPS for Small Works offering, with the work being recognised at our recent Pagabo Awards ceremony, winning the Best DPS Small Works Project under £1m.

As part of refurbishment works valued at £220,000, ME Construction renovated a number of public-facing facilities across the ground and first floors, including male, female, and disabled toilets, and baby changing facilities.

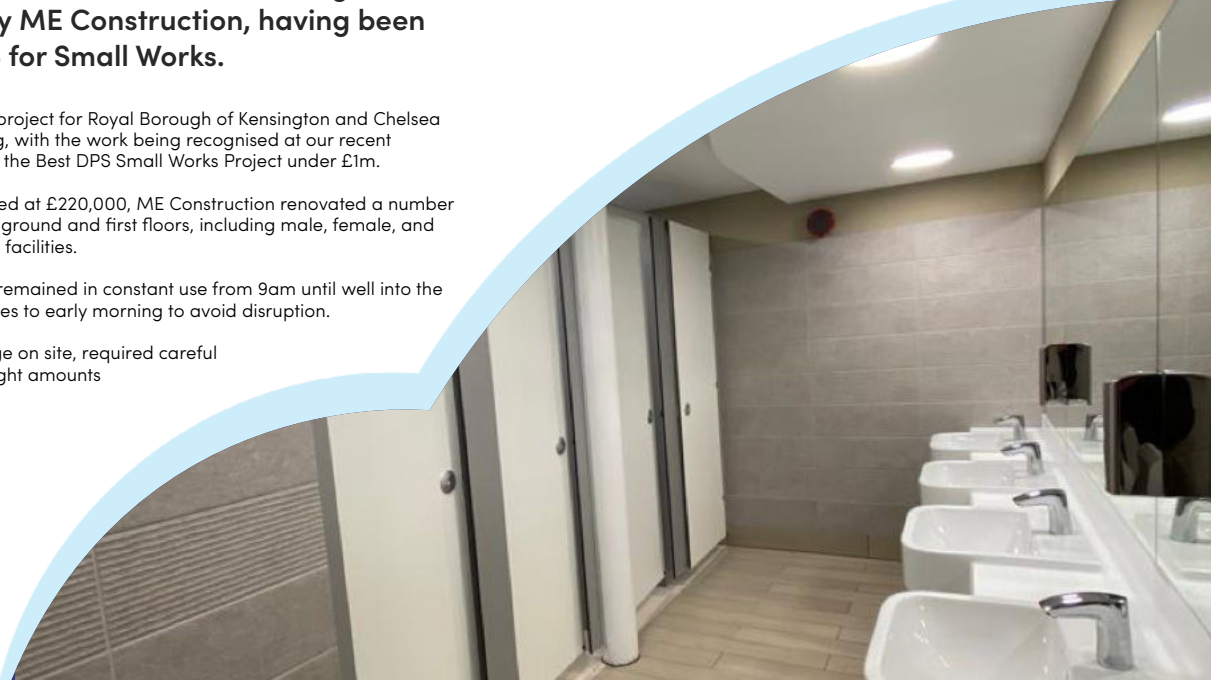

Throughout the works, the building remained in constant use from 9am until well into the evening, despite limited delivery times to early morning to avoid disruption.

This, combined with a lack of storage on site, required careful planning to book deliveries of the right amounts at the right time.

"Cultural venues like this will continue to be important to our society, so we're always pleased to be working with clients and suppliers to make sure that these spaces are the best they can be for their users."
